DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States. Claims 37 - 43 are rejected under 35 U.S.C. 102(b) as being anticipated by Takeda.

Takeda, U.S. Patent 4,532,419, discloses a memory card comprising, as shown in Figures 4 and 5, a circuit board with an exposed rear side and contact terminals T arranged in one row away from the edge of the circuit board on the exposed side. The circuit board also has vias (3A) connecting the contact terminals T of the exposed side with circuit traces of the covered side. A cover 1, shown in Figure 5, covers the front and edges of the circuit board.

Allowable Subject Matter

Claim 44 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art does not teach a leading edge of one or more contacts that is positioned ahead of the leading edge of the remainder of the contacts

Art Unit: 2822

Claims 45 - 63 are allowed.

The prior art does not teach the use of the memory card arrangement with flash memory or EEPROM memory chips.

Conclusion
